

SOP BIO-001 LAB GLASSWARE USE AND DISPOSAL

SCOPE

The procedures described in this policy refer to the disposal of lab glassware, used and empty glass and broken glass that is produced during work in the laboratory.

This policy **does not apply** to any glassware that has been previously contaminated with:

1. Biohazardous Materials;
2. Acutely Hazardous Substances according to the Code of Mass Regulations 310.30, and Policies of UMass Lowell EEM-EHS Department.
 - a. **Acutely Hazardous Substances** are “P-List” and “U-List” chemicals (listed in the Chemical Hygiene Plan pages 31-45) and Code **F027** substances (chlorophenol and tri-, tetra-, and penta- derivatives). The glass contaminated with those chemicals should be disposed as Hazardous Waste Materials.

DEFINITIONS

Lab glassware is any item that could puncture regular trash bags and potentially cause injuries to someone handling the trash bag. It also means any intact glassware that could potentially break during waste handling activities.

The following items are considered Lab Glassware under this policy:

- Glass pipettes used or broken
- Glass Pasteur pipettes
- Empty glass bottles
- Flasks and beakers
- Vials and test tubes
- Empty broken glassware

Glassware

Glass containers

DISPOSAL

All glassware and/or broken glass must be disposed in cardboard boxes lined with a clear plastic bag similar to those in the pictures below:

- The boxes should be used until $\frac{3}{4}$ full;
- Use tongs or a brush and dustpan to handle broken glass;
- Call EEM-EHS at 4-2618 for full container pick up or request new supplies.

IMPORTANT: Never dispose of the following items in these boxes:

- Any glassware used previously with **biohazardous or infectious materials** of any kind;
- Glassware (bottles, pipettes, etc.) used previously with **Acutely Hazardous Substances**;
- Liquid waste (any amount);
- Sharps (needles, syringes, blades, lancets, scalpels);
- Plastic petri dishes or culture plates;
- Plastic vials and conical tubes;
- Regular Trash.

For any questions on glass disposal and/or biosafety issues, “P-List”, “U-List” or Code_F027 chemicals, contact EEM-EHS at biosafety@uml.edu or Ext. 4-2618.

ADDENDUM TO POLICY AND PROCEDURES FOR GLASS DISPOSAL

LIST OF ACUTELY HAZARDOUS SUBSTANCE OR “P-LIST” CHEMICALS

The following list of Acutely Hazardous Substances is known as “P-List” chemicals (listed in the Chemical Hygiene Plan pages 31-45). Any glass or material contaminated with any of the following chemical substances should be disposed as Hazardous Waste Materials.

DO NOT dispose glass contaminated with any of these “P-List” substances in the regular glass disposal cardboard box.

The current list of “P-List” Hazardous Substances may be found on the EPA Website¹. The current regulations for Hazardous Waste in Massachusetts may be found on the Energy and Environmental Affairs Website².
